IMPORTANT . . .

To obtain a perfect reproduction of the garments illustrated in this book you **MUST** read and follow the instructions laid down in the paragraphs headed Tension and Materials. These instructions are the work of an expert knitter and if followed carefully satisfactory results cannot fail to be achieved.

This paragraph is most important—read it carefully before commencing your garment. You have obtained the correct FONTANA WOOL, you have obtained the correct needles but TO OBTAIN THE CORRECT MEASUREMENTS it is essential that you work to the tension stated. The rule on the back page is for your convenience and guidance. PLEASE USE IT. We suggest you work a small sample in this stitch before commencing the garment, then place the rule across it and see if your tension corresponds. If you are unable to obtain the correct tension proceed as follows. If you have less stitches than the number stated use a finer needle. If you have more stitches than the number stated use a coarser needle.

24th (26th) (26th) rows of the 5th patt has been worked.
